James Fenn

About

I focus mainly on Android development, and am now expanding my skill-set with the eventual goal of becoming a full stack developer. I have developed several Android applications that are published on the Play Store, and have created several useful tools and libraries in the process.

I am very passionate about Linux and Open Source Software, and hope to contribute to many different projects in the future.

In my free time, I also enjoy running, cross-country skiing, and playing the piano.

Experience

Assistant Instructor at Upstream Coding

May 2019 - Current
upstreamcoding.com

Upstream Coding is a group of people working to create a supportive environment to learn programming skills for people who are already in the job market. I help to instruct various classes, answer questions, and assist students with coursework.

Android Engineer at Lemonade Social

June 2017 - January 2018
lemonade.social

Lemonade was built to support local artists and musicians and to help grow their community and reach. I helped to create their Android app, including working with core Android APIs to write various parts of the user interface.

Skills

Android Design and Development • Kotlin • Java • HTML5 • CSS3 • JavaScript • Go • Python • Git • Linux • Material Design • UI/UX

Pittsburgh, PA

Side Projects

Attribouter

jfenn.me/projects/attribouter/

A lightweight about screen builder for Android apps that displays contributors and open source libraries, saving time and effort that should be spent on developing the app.

Android Library, Java

Metronome

https://goo.gl/L368Fz

A lightweight, well designed metronome app for Android with multiple sounds, tap input, and dynamic theming capabilities.

Android App, WearOS, Java

Alarmio

jfenn.me/projects/alarmio/

A simple alarm clock that integrates many useful features with a simple design.

Android App, Java, Kotlin

Photography Website

jfenn.me/photos/

A small website for hosting my photography and displaying basic information about my pictures.

Web, Jekyll, NodeJS

Education

University of Pittsburgh

2018 - 2022 (est)
pitt.edu

I am currently a second-year student working towards a degree in Computer Science.
